Thanks, all.

Oscar is correct. In mid-March LRD cleared TA (attached) on 9 of the 10 sections of a Senator Portman discussion draft bill (which was later introduced as S. 3997).

Ex 5 DP- (5 U.S.C. Sec 552(b)(5)) Deliberative Process

Ex 5 DP- (5 U.S.C. Sec 552(b)(5)) Deliberative Process

Senator Portman introduced S. 3997 in June and the Senate Homeland Security and Governmental Affairs committee ordered it reported with an amendment in the nature of a substitute on July 27 (ANS text is attached)

Ex 5 DP- (5 U.S.C. Sec 552(b)(5)) Deliberative

Per DOJ's incoming email at the end of this chain, LRD recommends that

Ex 5 DP- (5 U.S.C. Sec 552(b)(5)) Deliberative Process

Ex 5 DP- (5 U.S.C. Sec 552(b)(5)) Deliberative Process

Ex 5 DP- (5 U.S.C. Sec 552(b)(5)) Deliberative Process

Ex 5 DP- (5 U.S.C. Sec 552(b)(5)) Deliberative Process - to include those in this email chain.

Mat,

It has come to our attention that there are new bills that would impose a quarterly reporting requirement on ISDC for information that is not in our possession nor would we be able to obtain it. Ex 5 DP- (5 U.S.C. Sec 552(b)(5)) Deliberative Process

Ex 5 DP- (5 U.S.C. Sec 552(b)(5)) Deliberative Process

Please advise as to the best way forward to provide clarification. We would be pleased to work with appropriate staffers on what information can be reported. We appreciate your thoughts on appropriate steps to address these concerns. Thank you.

This section allows borrowers whose loan calculations have increased due to changes in interim final rules to work with lenders to alter their loan value regardless of whether the loan has been fully disbursed or if Form 1502 has already been submitted.

Section 109. Calculation of Maximum Loan Amount for Farmers and Ranchers under the Paycheck Protection Program. This section establishes a specific loan calculation for the first round of Paycheck Protection Program for farmers and ranchers who operate as a sole proprietor, independent contractor, self-employed individual, who report income and expenses on a Schedule F, and was in business during on February 15, 2019 through June 30, 2019. These entities may utilize their gross income in 2019 as reported on a Schedule F. Lenders may recalculate loans that have been previously approved to these entities if they would result in a larger loan.

Section 110. Farm Credit System Institutions. This section allows Farm Credit System Institutions to be eligible to make loans under the Paycheck Protection Program. It also allows for a zero risk weight for Paycheck Protection Program loans and aligns eased requirements for Farm Credit System Institutions with those of other Paycheck Protection Program lenders. Further, it ensures these smaller asset institutions have access to set-asides.

Section 111. Definition of a Seasonal Employer. This section defines a seasonal employer to be an eligible recipient which: (1) operates for no more than seven months in a year, or (2) earned no more than 1/3rd of its receipts in any six months in the prior calendar year.

Section 112. Changes to the 7(a) Loan Guaranty Program for Recovery Sector Business Concerns. This section improves the terms of 7(a) loans for seasonal businesses and businesses located in small business low-income census tracts.

- **Eligibility.** Eligible businesses must:
 1. be a small business concern as defined by the SBA size standards;
 2. employ 500 or fewer employees; and
 3. demonstrate at least a 50 percent reduction in gross revenue in the first or second quarter of 2020 quarter relative to the same 2019 quarter; and
 - A. be a seasonal employer seeking a loan not greater than \$1 million; or
 - B. have their principal place of business in, and at least 50 percent of their income derived from, a small business low-income census tracts subject to additional limitations in the tract's median family income.
- Entities made ineligible by statute for Paycheck Protection Program Second Draw loans and any entity that received a second draw of Paycheck Protection Program are not eligible.
- **Loan terms.** In general, borrowers may receive a loan of up to 2X annual revenues, up to \$10 million, with a maturity of up to 20 years at an interest rate of one percent to the borrower.
 - The formal interest rate on the loan is SOFR plus 300 basis points, with the SBA covering the spread between the borrower's one percent fixed interest rate.
 - The SBA's guarantee is 100 percent.
 - Allowable uses include working capital, acquisition of fixed assets, and refinancing existing indebtedness.
 - The credit elsewhere test is waived.
- **Payment Deferral.** The borrower would defer principal and interest payments for the first two years of the loan, and the Administrator would be given the authority to grant an additional two years deferment. The SBA would continue to make interest payments without regard for deferment.
- **Application Deadline.** Borrowers may apply for this loan until December 31, 2020.
- **Fee Waiver.** Fees to borrowers and lenders are waived.
- **Secondary Market.** No later than 60 days after enactment, the SBA must substantially reduce the barriers to sell loans on the secondary market.
- **Lender Eligibility.** The SBA must establish a process by which a Paycheck Protection Program lender would be eligible to make these loans.
- **Lender compensation.** The Administrator is authorized to reimburse a lender for three percent of the principal amount of the loan up to \$350,000 and one percent of the principal thereafter.
- **Standard Procedure.** Directs the SBA to allow lenders to approve loans made under this paragraph utilizing existing program guidance and standard operating procedure, to the maximum extent possible, as the standard SBA 7(a) program.

Section 113. Eligibility of 501(c)(6) Organizations for Loan Under the Paycheck Protection Program. This section would expand eligibility to receive a Paycheck Protection Program loan to include the following organizations:

1. 501(c)(6) organizations if,
 - a. the organization does not receive more than 10 percent of receipts from lobbying;

- b. the lobbying activities do not comprise more than 10 percent of receipts;
 - c. the organization has 50 or fewer employees; and
 - d. the covered loan is not more than \$500,000.
2. Chambers of Commerce that are 501(c)(6) organizations with 300 or fewer employees; and
 3. Destination Marketing Organization that are 501(c)(6) organizations, quasi-government entities, or political subdivisions of a state or local government with 300 or fewer employees.

Section 114. Prohibition on Use of Loan Proceeds for Lobbying Activities. This section prohibits any eligible entity from using proceeds of the covered loan for lobbying activities, as defined by 2 U.S.C. 1602.

Section 115. Effective Date; Applicability. Amendments made by this bill shall apply to Paycheck Protection Program loans as if included in the CARES Act.

Section 116. Bankruptcy Provisions. This section would establish a special procedure in the bankruptcy process if the Administrator determines certain small business debtors are eligible for Paycheck Protection Program loans. It requires court approval for Paycheck Protection Program loans to these debtors and requires any such loan be given a superpriority claim in the bankruptcy process, providing additional protection to taxpayers and participating banks. The provisions in this section would take effect only upon a written determination by the Administrator that certain small business debtors are eligible for Paycheck Protection Program loans and would sunset two years from the date of enactment.

Section 117. Conflicts of Interest. This section would require the President, Vice President, the head of an Executive department, or a Member of Congress as well as their spouse, child, son-in-law, or daughter-in-law to disclose this status when receiving Paycheck Protection Program, Paycheck Protection Program Second Draw, and Recovery Sector loans.

Title II. Small Business Programs Generally.

Section 121. Small Business Investment Company Program. This section amends Part A of Title III of the *Small Business Investment Act of 1958* such that it establishes the Small Business and Domestic Production Recovery Facility that allows for the following:

Section 321. Small Business Growth and Domestic Production Investment Facility.

- **Definitions.** This section defines eligible small businesses that participating SBICs can invest in and allows the SBA to consider bank-owned, non-levered applicants for this facility. Eligible small businesses include small businesses otherwise meeting the SBA's size standards and which (1) meet the revenue reduction requirements for PPP; (2) are a manufacturing business; or (3) are located in a small business low-income census tract.
- **Establishment.** Requires the Administrator to establish a facility to carry out this section.
- **Applications.** Allows any SBIC to submit an application to participate in this facility and outlines application requirements.
- **Selection of Participating Investment Companies.** This section would require the Associate Administrator to make a determination on an applicant no later than 60 days

after receiving the application. Selection criteria includes, the likelihood the applicant will either meet its financial goals, create and preserve jobs, recover output lost due to the pandemic, increase supply chain resiliency, and aid in the economic development of small business low-income census tracts.

- Provisional Approval. The SBA would be able to provide provisional approval to applicants, which shall not exceed 12 months.
- Exceptions to Application for New Licensees. The Administrator may reduce requirements for investment companies to encourage participation in the new facility.
- Commitments and SBIC Bonds. The Administrator is authorized to make commitments to a participating SBIC and purchase equity-like bonds from a participating SBIC.
 - SBIC Bond Terms. Bonds purchased by the Administrator under this section shall have the following terms and conditions:
 - A term of at least 15 years with an interest rate of up to two percent; interest shall accrue on the bond rather than require cash interest payments
 - The Administrator will participate in the SBICs profits at a rate of 1/3 of the commitment that is approved divided by the commitment approved plus regulatory capital.
 - The Administrator will receive up to two percent interest from the SBIC's commitment, while the managers of the SBIC will receive a maximum interest of 25 percent minus the interest paid to the Administrator.
 - The Administrator must receive all interest payments on bonds committed before an SBIC may distribute capital (including profits) to investors or fund managers.
 - If a participating SBIC defaults, the Administrator will receive any unpaid returns or interest prior to the company's investors or managers.
 - The Administrator may directly commit or commit to purchase bonds from an SBIC up to a maximum that is the lesser of 2x the SBIC's regulatory capital and \$200 million.
 - Any commitment by Administrator to purchase bonds will remain available to be sold by an SBIC for four years.
 - Until the Administrator has determined that the small business sector has recovered from the COVID-19 pandemic, 50 percent of dollars invested by SBICs under this program must be invested in COVID-19 recovery small businesses and critical supply chain businesses. Additionally, SBICs must invest a portion of their capital under this program in business owned by socially disadvantaged individuals.
- Profits and Distribution Fees. The interest paid to the managers of a participating SBIC cannot exceed 25 percent of net profits minus the interest of the Administrator and is separate from any accrued profits of the SBIC. Any interest payments in excess of that percentage will be repaid to the Administrator and the SBIC.
 - The Administrator must be paid in the same way as the investors of a participating SBIC and must be in accordance with SBA policies and regulations. The SBIC must treat the Administrator as if it were an investor.
 - The Administrator may not change participating SBICs fees outside of those consistent with the licensing process.

- Any losses on bonds will not be offset by fees or other charges by the SBIC.
- Protégé Program. The Administrator shall establish a Pathway Protégé Program to provide protégé SBICs with technical assistance from mentor SBICs.
- Evaluation of Compliance. The Administration is required to ensure participating SBICs are in compliance with all applicable requirements.
- Loss limiting Fund. This section establishes the procedure of the revolving grant fund at the Treasury. The fund would be replenished by the capital returned by participating SBIC's investments in the facility following a one-time appropriation.
- Application of Other Sections. This section would ensure that SBICs are subject to comply with penalties and prohibitions on unlawful activities established in the *Small Business Investment Act of 1958*.
- Authorization of Appropriations. This section authorizes the appropriation of \$10 billion to support this program.
- Approval of Bank-owned, Non-leveraged Applicants. This section would require the administrator to review and approve or disapprove of applications by non-bank, non-levered applicants within 45 days of receiving the application.
- Electronic Submissions. This section allows documents under this title to be submitted electronically, including the use of electronic signatures.

Title III. Appropriations

Section 131. Commitment Authority and Appropriations.

- Commitment Authority. This allows the Administrator to make commitments for loans made under the Paycheck Protection Program and Second Draw Loans beginning on February 15, 2020 through December 31, 2020 at \$749 billion. It further allows commitments for Recovery Sector Loans beginning on February 15, 2020 through December 31, 2020 at \$100 billion. It also separates SBA's traditional 7(a) loan program authorization from the Paycheck Protection Program, Second Draw, and Recovery Sector Loans.
- Direct Appropriations. This would rescind \$100 billion in previously appropriated funds from the CARES Act and the Paycheck Protection Program and Health Care Enhancement Act and appropriate \$190 billion in funds for the Paycheck Protection Program and Second Draw Loans, \$57.7 billion for Recovery Sector Loans, and \$10 billion for the Small Business Growth and Domestic Production Investment Facility.
- Emergency Designation. This language designates the funds appropriated in this section as an emergency requirement and exempts them from Pay-As-You-Go Act requirements.

HSGAC Bipartisan Competiveness Legislation Needing OMB TA

IP Theft

- **Development of a National Strategy for Intellectual Property Theft.** Directs the President to establish such a strategy. Would also require multiple agencies to provide recommendations and input for the President to consider. Specific issues that the President should consider incorporating into the strategy would include the role of the federal government in supporting private sector entities (including development of voluntary best practices and collaborative public-private efforts), international diplomatic efforts, law enforcement operations, and identifying legislative proposals to address authorities gaps.
 - Text is being developed.

Ransomware/Cybersecurity Package

- **Create a National Cybercrime Reporting Center:** Establish a National Cybercrime Reporting Database for local law enforcement to share intelligence on cybercrime-related events. This would serve as a clearinghouse and coordinate with federal agencies and other entities depending on what is reported. The clearinghouse would also identify key cybercrime trends.
 - Text is being evaluated and developed.

- **Federal Support for State and Local Cyber Resilience:** Establish a National Cybersecurity Assistance Fund to help increase the resilience of public and private entities. Administered by FEMA, the grants would assist state and local entities with areas of significant cybersecurity risk and to critical infrastructure. This would also codify the cyber state of distress and establish a cyber recovery fund, which would allow states to have the capability to declare a major cyber incident and authorize DHS to respond with support for response and recovery. This provision would also authorize the federal government to respond to significant cyber incidents under an emergency declaration or disaster declaration.
 - Text is being evaluated and developed.

- **Recruiting and Developing a Strong Cyber Workforce:** This provision would expand the CyberCorps program and expand existing cybersecurity education grants to universities, colleges, and technical institutions. It would also include various reporting requirements to determine the viability of recruiting programs and funding opportunities. It would also include modifications to the Perkins Act and allow CISA to develop an exchange process for rotational programs between the agency and the private sector.
 - Text is being evaluated and developed. There are multiple versions of this provision, including proposals from the Cyberspace Solarium Commission that likely are in HELP's jurisdiction. We will be working with HELP on those pieces.
 - Expect to include Sen. Peters' Federal Rotational Cyber Workforce Program Act (S. 406 in the 116th Congress).
 - Text drafted and submitted to OMB for TA on January 28, 2021. TA is still pending.

- **Report on Cybersecurity Standards and Best Practices to Support Local and State Entities:** Require the National Cyber Director to coordinate an interagency process to develop recommendations, best practices, and resources for state and local partners on investigating and reporting cybercrimes.

Artificial Intelligence (AI) and Related Provisions

- **Deploying and Leveraging AI in Government to Support American Innovation:** Require OMB/GSA, and possibly SBA, to take certain actions to expand

the AI entrepreneurial ecosystem in the US by increasing uptake across the federal government – leveraging data held by the federal government – in a safe and trustworthy manner that aligns with American values.

- Text is being developed.

- **Ensuring Artificial Intelligence Governance and Oversight to Protect Privacy and Civil Rights/Civil Liberties:** Requires the President to appoint a task force to assess the privacy, civil rights, and civil liberties implications of artificial intelligence and emerging technologies. This includes identifying policy and legal gaps and making recommendations to ensure that uses of artificial intelligence and associated data in U.S. government operations comport with freedom of expression, equal protection, privacy, and due process. For AI uptake to be increased, the American public must be able to trust the federal government's use of it. Industry also needs guidance and standards to be able to develop products to fulfill government needs. (NSCAI) *Alternative: privacy and civil liberties board review of AI contracts – text for both exists.*

- Text finalized. TA pending from OMB.

- **Acquisition Innovation Test Programs:** Directs the OMB Director to establish an Acquisition Modernization Test Board to support the continual improvement and agility of federal acquisition; to conduct outreach with the private sector to promote understanding within the acquisition workforce of innovative industry practices that may be suitable for adoption by the Federal Government and awareness by the private sector of ongoing federal acquisition modernization and innovation activities; and other purposes to accelerate federal acquisition of rapidly evolving technologies including AI.

- Text is being developed and vetted. TA pending from OMB.

- **AI Scholarship for Service Act:** This provides funds to community colleges, colleges, and universities for student scholarships in support of education in areas relevant to artificial intelligence. In return for their scholarships, recipients agree to work after graduation for the Federal, State, Local, Tribal, or Territorial Government, including as a public school teacher in a position related to artificial intelligence.

- Leg text finalized.

- **Create a Federal Chief Data Officer.** Establishes a Chief Data Officer in the EOP to coordinate the implementation of the Open Government Data Act, and develop new opportunities to make government data available to AI researchers outside of government.

- Leg text is being drafted.

Supply-chain/Manufacturing

- *U.S. overreliance on foreign countries, such as China, for critical drugs and medical supplies increases supply chain vulnerabilities. This has been exacerbated as a result of the COVID-19 pandemic. These three provisions would help address this challenge.*

- **HOME Act:** The HOME Act invests in the domestic production of critical drugs and medical supplies through advanced manufacturing and long-term contracts.
 - Leg text is ready. Waiting for feedback from HELP and FDA. Introduced as standalone bill in the 116th Congress. **Need OMB TA.**
- **PART Act:** The PART Act seeks to identify the extent of U.S. reliance on critical drugs/supplies by increasing manufacturer reporting requirements to the FDA. It would also require that FDA share critical manufacturing data with ASPR and DOD to increase preparedness measures.
 - Revised leg text with feedback from HELP is ready and HELP is supportive. Introduced as a standalone bill in the 116th Congress.

*Supply Chain/Manufacturing/Manufacturing: Note: we are evaluating the various Buy America provisions and hope to come up with a proposed package. **Will need OMB TA on final package.***

- **Make PPE in America Act:** This bill requires procurement contracts for personal protective equipment (PPE) to be long-term and the manufacturing of the PPE to be made in the United States.
 - Leg text ready. Bipartisan – Chairman Peters is the lead D sponsor. Introduced as a standalone bill in the 116th Congress.
- **BuyAmerican.gov Act:** This bill would increase transparency and limit the use of waivers of Buy American laws. Among other provisions, the bill would require the Department of Commerce to report on implementation and compliance with Buy American laws; require Commerce and the U.S. Trade Representative to assess the impact of trade agreements on Buy American laws; and require the General Services Administration to establish a BuyAmerican.gov website.
 - Leg text ready. Bipartisan. Introduced as a standalone in the 116th with Senators Murphy, Graham, and Brown.
- **Build America, Buy America:** This bill would apply Buy America rules to all taxpayer-funded infrastructure and public works projects.
 - Leg text ready. Bipartisan. Introduced as a standalone in the 116th by Senator Brown, with Senators Portman, Braun, and Peters as original cosponsors.
- **Made in America Act:** This bill adds materials that would be subject to Buy America requirements and adds Buy America requirements to federal infrastructure programs that don't currently have them. The bill also requires that all of the manufacturing processes used in making the material be completed in the United States in order to qualify as 'American made' and requires the Department of Commerce to consider how many American jobs are created when settings its 'American made' standards.

- Baldwin-led bill. Leg text ready. Would be within HSGAC jurisdiction.
- **Make It In America Act:** This bill ensures federal procurement funds benefit domestic industry and its workforce by adding new conditions to the use of waivers and exceptions to the Buy American Act. The bill also codifies the Made-in-America Office, which was established in President Biden's [executive order](#) to review and approve all waivers to domestic content laws (e.g. Buy American Act, Berry Amendment etc.).
 - Stabenow-led bill. Leg text ready. Would be within HSGAC jurisdiction. Senators Peters and Portman are cosponsors.

The Safeguarding American Innovation Act: This bipartisan bill was introduced by Senator Portman in the 116th Congress. OMB TA is pending.

- **Creation of Federal Research Security Council within OMB.** Among other things, the Council would be responsible for: coordinating and creating a uniform federal grants application process across agencies; establishing processes to share information about grantees between agencies; implementing additional reporting requirements for grantees; and issuing guidance to ensure compliance with grant award reporting requirements.
- **Expanding State's Authority to Deny Visa Applications.** This bill would expand State's authority to deny visas to individuals who might access export-controlled technology and information. The bill creates certain guardrails for State on how they can make these determinations.
- **Limiting Ability of Foreign Students to Participate in Fundamental Research.** This provision adds additional requirements for academic institutions if a J-1 visitor would have access to export controlled technology or information to ensure security.
- **Lowering Reporting Threshold for Foreign Gifts.** Universities would be required to report any foreign gift above \$50,000 under Section 117 of the Higher Education Act (currently, they have to report gifts above \$250,000).

Many of you received this already on Thursday, but I wanted to share more broadly for visibility and in case other branches had interest.

Given that we may need to pull together a consolidated passback to LRD, please let me know as soon as if you can if you think you'll have comments. It would be ideal if I could have them by **COB TUESDAY** so I can put them together Wednesday morning.

Please reach out if you have any questions!

Ex 5 DP- (5 U.S.C. Sec 552(b)(5)) Deliberative Process

Ex 5 DP- (5 U.S.C. Sec 552(b)(5)) Deliberative Process

In terms of next steps, there are currently a number of related House bills at various stages of the legislative process that will likely make up the House's counterproposal to S. 1260. Our understanding is that

Ex 5 DP- (5 U.S.C. Sec 552(b)(5)) Deliberative Process

Ex 5 DP- (5 U.S.C. Sec 552(b)(5)) Deliberative Process

Ex 5 DP- (5 U.S.C. Sec 552(b)(5)) Deliberative Process

Ex 5 DP- (5 U.S.C. Sec 552(b)(5)) Deliberative Process We will circle back with any additional information as soon as possible.

Please review the Excel document and let us know whether you concur or have any concerns with the comments provided by COB Tuesday, July 20, if possible. Please also let us know if you have additional concerns with the bill that are not captured in the comment matrix. We defer to individual offices to consult with their PADs as appropriate in providing their responses. We also intend to share the compilation of comments with Ex 5 DP- (5 U.S.C. Sec 552(b)(5)) Deliberative Process but wanted to share for internal OMB review first.

Ex 5 DP- (5 U.S.C. Sec 552(b)(5)) just sent me the attached comments Ex 5 DP- (5 U.S.C. Sec 552(b)(5)) on S. 1260, USICA. They also provided the following comment Ex 5 DP- (5 U.S.C. Sec 552(b)(5))

Ex 5 DP- (5 U.S.C. Sec 552(b)(5)) Deliberative Process

The comments I previously received Ex 5 DP- (5 U.S.C. Sec 552(b)(5)) were included in the compilation I circulated last week, and are attached here as well for your reference.

I assume Ex 5 DP- (5 U.S.C. Sec 552(b)(5)) Deliberative Process

Ex 5 DP- (5 U.S.C. Sec 552(b)(5)) Deliberative Process

Ex 5 DP- (5 U.S.C. Sec 552(b)(5)) Deliberative Process by COB today as initially requested, since they came in so late, but if you could take a look and get back to me within the next couple days, that would be great.

Celeste & Team OFFM-

We wanted to loop back and make sure any MIAO and OFFM concerns are reflected in the consolidated comments that Kimmie (LRD) has gathered and circulated on S. 1260 (US Innovation and Competition Act).

Jeremy and I reviewed the Ensuring Domestic Manufacturing Capabilities Provisions (Subtitles A & B), sections 4111-4140 (pp. 1163-1210) and Ex 5 DP- (5 U.S.C. Sec 552(b)(5))
Ex 5 DP- (5 U.S.C. Sec 552(b)(5)) Deliberative Process
Ex 5 DP- (5 U.S.C. Sec 552(b)(5)) Deliberative Process

Note that the front end of the language focuses on financial assistance and Ex 5 DP- (5 U.S.C. Sec 552(b)(5)) Deliberative Process
Ex 5 DP- (5 U.S.C. Sec 552(b)(5)) Deliberative Process

We defer to Kimie and LRD for additional guidance on posture of discussions and timing for action.

Ben – we were glad to hear of the Buy American NPRM. Can you please send the text or a link to it? We have not been able to locate it online.

By way of heads up and for your convenience, attached (again) is the text of the domestic procurement preference section that is included in the bipartisan infrastructure bill. It includes Build America, Buy America; Make it in America; BuyAmerican.gov; and Make PPE in America.

Based on the White House press release fact sheet, there do not appear to be conflicts posed by the bipartisan infrastructure section that would inadvertently undermine the NPRM. However, Celeste and staff that drafted the NPRM might want to review the bill based on their knowledge of the details of the NPRM.

Best,

Hi Will,

The Build America, Buy America Act is making rounds again and I'm trying to find the latest version of comment we had previously provided back to the Hill in April/May.

As you recall, there was also Ex 5 DP- (5 U.S.C. Sec 552(b)(5)) Deliberative Process and I don't think I ever saw it go forward or what the outcome was.

This would be helpful to have, to help inform OFFM comments this time around.

Hi Sabeel,

Thanks for raising this question. As the article notes, ED issued a final rule on Total and Permanent
Disability in August 2021, which provided streamlined loan relief for a targeted group of

Marc –

We have been asked to provide comments on the NSTC's *Guidance for Implementing NSPM-33 on National Security Strategy for US Government-supported R&D*. This guidance seeks to establish common requirements for grant-making organizations across the federal government. PHB equities are not named explicitly. I have no comments or concerns with this implementation guide and with your concurrence will clear.

Linda and Ryan,

Thanks for the call with us earlier today. I went back through the text discussed from Ex 5 DP- (5 U.S.C. Sec 552(b)(5)) Deliberative Process

Hi James,

How exciting! Welcome to EOP! I currently have a request for views on COMPETES out with a 3:00 PM Wednesday deadline. I haven't <Ex 5 DP- (5 U.S.C. Sec 552(b)(5)) Deliberative Process> but am happy to keep you posted as responses start coming in.

With regard to USICA, I sent out a request for views last year when the bill passed the Senate. We received <Ex 5 DP- (5 U.S.C. Sec 552(b)(5)) Deliberative Process> I can share that compilation of comments with you for awareness if you'd like, though some of it may be OBE at this point.

Thanks!
Kimie

Hi Kimie – Reaching out from a new (temporary) perch at NSC LEG! Am I correct that you have an active LRM on critical comments on both bills? If so, Ex 5 DP- (5 U.S.C. Sec 552(b)(5))
Ex 5 DP- (5 U.S.C. Sec 552(b)(5)) Thanks! James

Margo/Shelly – I forwarded this about a week and a half back, and now it's due to Elyse today. Not sure if the two of you were iterating on a chain without me or not. I've attached our thoughts from when we took a look at the SAP, and also the email with the comments from a when we looked at a previous version of the bill. Defer to the two of you on whether and what is shared back with Elyse on this.

Subject: FW: LRM: [KLM-117-102] Due 03/09/2022 Wednesday at 3:00 PM -- OMB Request for Views on HR4521 - America COMPETES Act of 2022

Hello Everyone,

Please see the request for views on the America COMPETES Act, aka USICA, aka Endless Frontiers. While I think LRD prefers views (commentary on the overall objectives of the bill or section) and not red line, please feel free to provide both.

Please provide comments by **COB Tuesday, 3/8** so that I can combine across the branches. If you have any questions about process, please reach out! Thank you!
