

# The RESPECT Title IX Act

A Model Law to End Neverending Title IX Rulemaking

**DFI's *Respect Equality in Sports, Privacy, and Education and Campus Transparency Act (RESPECT Title IX Act)* offers a permanent fix to the regulatory ping-pong.**

**Protects Women and Girls:** Maintains separate sports, locker rooms, and bathrooms based on biological sex—not gender identity.

**Codifies Due Process:** Ends biased “single investigator” models and guarantees fair campus proceedings.

**Upholds Free Speech:** Protects against compelled speech and forced use of “preferred” pronouns.

**Supports Parental Rights:** Prevents schools from indoctrinating kids with radical gender ideology and hiding social gender transitions from parents.

**Protects Faith-Based Institutions:** Ensures religious schools can follow their convictions without fear of losing federal funds.

**Ends Regulatory Overreach:** Stops federal agencies from rewriting Title IX through new regulations.

**It's time to break the cycle.**

The *RESPECT Title IX Act* ensures enduring protections for students—restoring fairness, protecting free speech, and safeguarding women's sports and intimate spaces—bringing an end to the neverending rulemaking.
