Can we add this to the agenda for the meeting on 01/06?

This question comes from the Office of Student Protections at CPS.

**In alignment with Title IX, we want to ensure that students are able to receive their assessments using their preferred names. Could you please confirm if there will be any changes to this process for state assessments for SY25? Our goal is to maintain compliance with Title IX requirements and provide an inclusive experience for all students.**
